Cleaner Production: the report of an experience

Clementino, F. C. F. ^a, Pereira F. J. P. ^a

a. SEBRAE, Rio Grande do Norte, clement@ufrnet.br

Abstract

The SEBRAE of RN, in partnership with CNTL/SENAI-RS carried out a course to form consultants in cleaner production for small and micro companies. As a participant, I carried out the practical part of the consultancy in cleaner production in the company Tecniplas Nordeste Plásticos Reforçados Ltda., situated in Natal/RN. Therefore, it was used a software involving several determinations, being presented in this narrative some information regarding cleaner production and the reduction of waste as: case study and economics and environmental results.

Keywords: Cleaner Production, Waste Reduction, Environment.
